

Colour in Team H-A-P, you can use any colours you like!
Can you remember what the three parts of Team H-A-P do? Write
your answers down, or just explain them to a grown-up.

Meet
Team H-A-P!

Try drawing your very own version of Team H-A-P! It doesn't have to look like ours, you can do whatever you like! Remember though, it should show the three parts of the brain: the Hippocampus, the Amygdala & the Prefrontal cortex..

Team H-A-P
